

SENATOR CARPENTER: Yesterday Senator Stahmer approached me because of the chairmanship I have, what he thought was a suggestion at least, it ought to be presumed by the legislature, in order to acquire some additional room for office space. During the time that we are recessed I would hope that Senator Stahmer would take the benefit of that time and take all the senators, and I hope you would all go with him, except those on the executive board and to look at what he has to suggest so that when the committee meets this afternoon, we can attempt to give it some consideration for future action. During the time we are recessed I hope that the balance of the senators will go with Senator Stahmer who has the doors open, its close by, in order to give you a visual picture of what he suggests the executive council ought to consider.

SPEAKER: The clerk has a few more bills to read. Senator Stahmer.

SENATOR STAHMER: I would ask if the senators that are not on the executive board could meet with me in the rotunda and we will take a very short walk of about 10 steps and give the explanation on these offices, none of which are for me incidentally, but they would be for, as I would visualize for the leadership and/or the chairman of the senate and I'm not in that category, but I think it would give us more space and good space and that is why I'm making this suggestion.

CLERK: Read Title LB 52

LB 53

SPEAKER: Executive Board will meet and refer these bills and then will come back and the chairman of the executive board can make his report as to the referrals and those not on the executive board will meet in the, out in the rotunda, we will then, I think we will have to be real realistic about this, will recess to 11:30, because we do have a number of bills to refer. We are recessed to 11:30. There is no further business, I will entertain a motion to adjourn. Senator Frank Lewis.

SENATOR FRANK LEWIS: I move that we adjourn.

SPEAKER: Senator Lewis until what hour? Will you disperse Senator Lewis to Senator Carpenter?

SENATOR CARPENTER: I move that bill 1 through number 7 be put on general file without a hearing (inaudible) there on there for five days. If anybody objects you can refer them to a committee for a hearing, if that's your desire to do so.

SPEAKER: Senator Carpenter, excuse me, but I believe that revisers bills according to the rules automatically go on general file. Is that correct Mr. Clerk? Now Senator Lewis. Senator Lewis is not here does anybody else care to make a motion? Senator Marsh.

SENATOR MARSH: I move that we adjourn until 10:00 tomorrow morning.

SPEAKER: You have heard the motion are you ready for the question. All those in favor say aye, those opposed say no. The motion is carried and we stand adjourned till 10:00 a.m. except for one thing, Senator Duis.

SENATOR DUIS: I would think we could be there from an hour and a half to two hours.

CLERK: That would be 3:00. Senator Duis can we delay your meeting until 3:00?

SENATOR DUIS: Yes I would suggest then that we have this meeting at 3:00 then, of the rules.

SPEAKER: And I trust Senator Duis, that you will notify the members of your committee. In that event we stand adjourned until 10:00 a.m. tomorrow morning.

(End of Belt #2)
